5. STRANGE SEQUENCE

You're handed this puzzle without any preamble. Apparently, the agent believes the information on the page is all you need to solve it.

When

$$1 = 1$$

$$2 = 2$$

$$3 = 3$$

$$4 = 2$$

$$5 = 1$$

And

$$777 = 9$$

$$2514 = 6$$

$$113 = 5$$

Then it follows that

$$15 = ?$$

$$122 = ?$$

$$1788 = ?$$

$$3224 = ?$$

$$149 = ?$$

$$1903 = ?$$

Answer: _ _ _ _ _

Remember you don't need to crack this code immediately. Take your time, find a quiet moment and have your answers ready by the time you get to the end of your walk. Raise £50 to receive a printed puzzlebook.
